## Butterfly life cycle

KS/2

# Activity two

## Butterfly ID Game

<p><b>Peacock</b></p> <p>This butterfly has red wings with four eye spots. The eye spots are eye-like markings which can trick a predator into thinking they are bigger and scarier than they really are. The underside of the wings are coloured like dead leaves for camouflage. The Peacock caterpillar's favourite food is stinging nettles!</p> <p>Butterfly number .....</p>	<p><b>Dark Green Fritillary</b></p> <p>A large butterfly with bright orange wings and black colouring. This butterfly can be found in many different habitats including woodland, grassland and hedgerows so keep an eye out for this along the duration of the walk.</p> <p>Butterfly number .....</p>
<p><b>Brimstone</b></p> <p>This medium sized butterfly looks incredibly like a leaf. With pointed tips on the edge of its wings and clear veins running through the wings just like the veins in a real leaf! When sitting still on a tree it is the perfect camouflage, you might not even see it's there.</p> <p>Butterfly number .....</p>	<p><b>Brown Argus</b></p> <p>The wings of this butterfly are brown orange spots at the tips of the wing. The antennae are stripy black and white!</p> <p>Butterfly number .....</p>
<p><b>Red Admiral</b></p> <p>The wings are very black with an orange stripe going down the middle and along the bottom edge of the wing. They have white spots on the top tips of their wings too.</p> <p>Butterfly number .....</p>	<p><b>Comma</b></p> <p>This butterfly has bright orange wings with dark red and yellow near the edges and black blobs scattered on the wings. The edges of the wings are very wobbly.</p> <p>Butterfly number .....</p>
<p><b>Gatekeeper</b></p>	<p><b>Speckled Wood</b></p>

This butterfly is orange and brown with black eyespots. The Gatekeeper lives up to its name and is often found around gateways, hedgerows and field edges where clumps of flowers are left to grow.

Butterfly number .....

This butterfly has brown wings with lots of small white spots and eye spots in the edges. The edge of the wing is frilly, and the wings look a bit furry. These butterflies are very unusual. Their favourite food doesn't come from a flower... it comes from a tiny insect called an Aphid. Aphids feed on the sap of plants and trees, and what they poop out is a very sugar liquid called Honeydew. Honeydew is what the Specked Wood butterfly eats!!

# Activity three

## Food chains game

Use these clues to help create your food chain.

- Think about where these animals might live
- Are they a predator or prey
- Whether they are nocturnal or not
- Whether they fly in the sky or walk on the ground
- What their mouths are like so you can get an idea of what they may eat
- How big the animal is and whether something bigger might be able to eat it

# Bird song

<p><b>Green Woodpecker</b>  <i>"Kark kark kark kark kark kark kark kark kark"</i>              Many short sharp sounds in a row, all the same.</p>  <p>Song number .....</p>	<p><b>Great Tit</b>  <i>"Tweet tweet tweet tweet tweet tweet tweet tweet tweet tweet"</i>              Very high pitched garden bird song. You will probably hear this in your own garden or in the woods.</p>  <p>Song number .....</p>	<p><b>Little Owl</b>  <i>"Wohooooo"</i>              Very high pitched squeak screech sound. Short and sharp.</p>  <p>Song number .....</p>
<p><b>House Martin</b>  <i>"Chirp chirp chirp chirp chirp chirp chirp chirp chirp"</i>              Lots of short sharp chirps.</p>  <p>Song number .....</p>	<p><b>Great Spotted Woodpecker</b>  <i>"Squeak squeak squeak squeak squeak squeak squeak squeak"</i>              Many short sharp squeaks in a row, all the same. Sounds a bit like a mouse</p> 	<p><b>Wood Pigeon</b>  <i>"Woo hoo hoo woo woo.... woo hoo hoo woo woo"</i>              Some people mistake this bird song for an owl.</p>  <p>Song number .....</p>
